# Introduction

## Quality Montessori Materials Now Produced in Pakistan at AFFORDABLE Prices !

**Montessori Specialist** is now your one-step shop for purchasing quality Montessori Materials. Parents now have the luxury of working with materials at home to foster their child's development with the Montessori method.

Educators may purchase materials for their Schools. We offer you the choice from a range of over 250 materials, including printable soft copies for Terminology Cards & more! The goal at **Montessori Specialist** is to provide our customers with Premium Quality Montessori Materials at Affordable prices.

Since we sell materials directly to our customers, avoiding any additional retail mark-up, we can pass any savings directly to our customers.

### Guarantee:

Montessori Specialist uses top class woods, plywood's, varnishes and paints in the manufacturing of our products. Excellent craftsmanship and experts' quality control process make our products durable, matchless in quality and scientifically accurate in dimensions.

Any product can be replaced within 7 days of delivery for any manufacturing fault.

# Sensorial

From an early age children are developing a sense of order and they actively seek to sort, arrange and classify their many experiences. The sensorial materials provide a key to the world, they are a means for a growth in perception, and understanding that form the basis for abstraction in thought.

## Cylinder Blocks Stand

A Beautifully finished wooden stand for Knobbed cylinder blocks.

**Item Code: S02418**

**Price : 1650**

## Cubes for Pink Tower

A box with 273 wooden cubes (1 x 1 x 1 cm) in a natural wood finish. Used to compare and calculate the volume of the cubes of the Pink Tower.

**Item Code: S02419**

**Price : 6500**

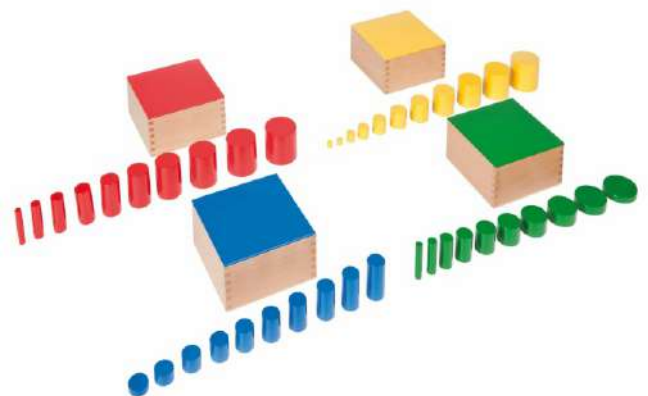

## Prisms for Brown Stairs

Box with 19 wooden prisms (1 x 1 x 20 cm) in a natural wood finish. Used to compare and calculate the volume of the prisms of the Brown Stair.

**Item Code: S02420**

**Price : 1850**

## Knobless Cylinders

This is a set of four wooden boxes with painted lids. Each box contains ten knob less cylinders corresponding in size with the knobbed cylinders. The cylinders in each box are painted the same color as their lid.

**Item Code: S2421**

**Price : 4800**

## Color Box of 32 Pairs

A supplemental box of colors containing 4 matching shades of each of the colors: red, blue, yellow, purple, green, brown, pink and gray.

**Item Code: S02422**

**Price : 4100**

## Color Tablet Box # 3

The Third Box of Color Tablets introduces the final stage in color discrimination - that of grading. The box contains 63 tablets representing nine colors in seven graded shades of: red, blue, yellow, green, purple, orange, brown, pink and gray.

**Item Code: S02423**

**Price : 4400**

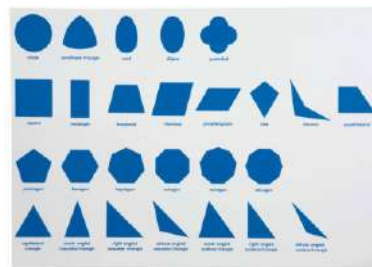

## Geometric Form Cards w/Cabinet

The Geometric Form Cards consist of three series of 35 cards that correspond to the figures contained within the Geometric Cabinet. Series include 7 each of solid, thick lined and thin lined cards. Cabinet Included.

**Item Code: S02424**

**Price : 5300**

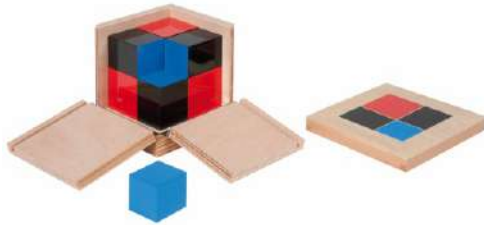

## Geometric Cabinet Control Chart

A control chart for the Geometric Cabinet, showing the 26 geometric shapes.

**Item Code: S02425**

**Price : 850**

## Binomial Cube

The Binomial Cube Montessori material is a dissected wooden cube made up of eight smaller painted cubes and prisms. It includes a box with two hinged sides and a lid with the finished pattern silk-screened on top.

**Item Code: S02426**

**Price : 3700**

## Trinomial Cube

The Trinomial Cube Montessori material is a dissected wooden cube made up of twenty-seven smaller painted cubes and prisms. It includes a box with two hinged sides and a lid with the finished pattern silk-screened on top.

**Item Code: S02427**

**Price : 4450**

## Musical Bells 13 Pairs

The set consists of 13 pairs of bells that comprise the chromatic scale beginning at 'c' (do). One bell of each pair is either black or white and the other is natural wood. 2 bell mallets and 1 damper are included.

**Item Code: S02428**

**Price : 18500**

## Rough Gradation Tablets

5 pairs of varying grades of sandpaper mounted on solid beech wood tablets 12 x 9 cm. Includes a box for storage.

**Item Code: S02429**

**Price : 1550**

## Smooth Gradation Tablets

5 pairs of varying smooth surfaces mounted on solid beech wood tablets 12 x 9 cm. Includes a box for storage.

**Item Code: S02430**

**Price : 1550**

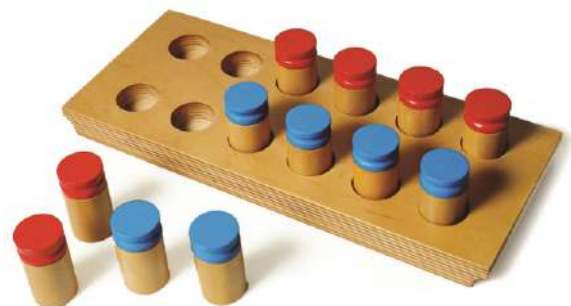

## Pressure Cylinders

The set includes a wooden tray that holds 6 matching pairs of pressure cylinders.

**Item Code: S02431**

**Price : 5200**

## Smelling Bottles

The set consists of twelve hollow wooden cylinders, each with a removable perforated top and a colored cap.

**Item Code: S02432**

**Price : 2700**

## Circles, Squares and Triangles

The sets of Circles, Squares and Triangles provide the possibility for the child to explore and experiment possibility for the child to explore and experiment shapes are represented in 3 colors - red, yellow, blue, and are graded from 1 to 10 cm in size.

**Item Code: S02433**

**Price : 5200**

## Taste Bottles

The set includes eight small glass bottles with eye-droppers and a wooden tray. Tray measures 35.5 cm x 11 cm x 2 cm (about 14" x 4" x 1")

**Item Code: S02434**

**Price : 2600**

## Sensorial Decanomial Box

With the Sensorial Decanomial, the child places the squares and rectangles in order by size and color to complete the square of the decanomial. The material consists of a 10 compartment box for storing the sets of color-coded plastic squares and rectangles.

**Item Code: S02435**

**Price : 5500**

## Thermic Tablets

This set contains six pairs of tablets made of wood, slate, glass, cork, felt and steel to cultivate the ability to discriminate thermic quantities.

**Item Code: S02436**

**Price : 2250**

## Geometric Shapes Lacing Cards

This collection of 8 wooden geometric shapes with laces is sure to encourage children to work with their hands, indirectly developing small motor control.

**Item Code: S02437**

**Price : 1800**

## Leaf Lacing Cards

This collection of 6 wooden leaf lacing cards with laces is sure to encourage children to work with their hands, indirectly developing small motor control.

**Item Code: S02438**

**Price : 1800**

## Inscribed and Concentric Figures (Acrylic )

This set includes plastic inscribed and concentric figures in a wooden box with a lid. This box contains graded sets of six concentric circles and six concentric squares painted red on one side and green on the other side. It also contains two sets of inscribed triangles and circles painted yellow on one side and blue on the other side.

**Item Code: S02439**

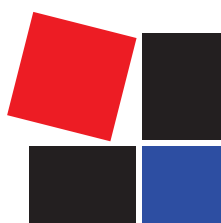

**Price : 3800**

# Mathematics

Mathematics is a way of looking at the world, a language for understanding and expressing measurable relationships inherent in our experience. A child is led to abstract ideas and relationships by dealing with the concrete.

**Montessori**  
**Specialist**

material manufacturer and supplier

# MATHEMATICS

## Lacing Cards Numbers

This lacing set is an educational material designed to help with familiarization of the numbers 1 through 10. It has holes for lacing, as well as a tactile feel for tracing.

**Item Code: M02410**  
**Price : 1850**

## Cut-Out Lacing Cards Numbers

Here's a fun twist on traditional lacing cards for kids - using wood! These are perfect for little hands. This Set includes 1 - 10 cutout numbers with storage box.

**Item Code: M02411**  
**Price : 1700**

## Montessori Checker Board With Number Tiles

The Checker Board is used for short and long multiplication with the hierarchies in the decimal system up to 100,000,000.

**Item Code: M02412**  
**Price : 6200**

## Flat Bead Frame

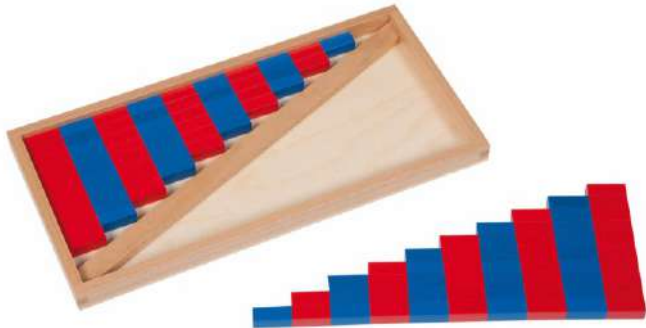

This flat bead frame is the final steps in the progression to abstract multiplication. Wooden frame contains nine rows of golden yellow beads, for advanced mathematical calculations, The frame measures 31 cm x 25 cm

**Item Code: M02413**  
**Price : 2600**

# MATHEMATICS

## Small Number Rods

The Small Number Rods set includes two sets of 1 cm square rods in lengths from 2.5 cm to 25 cm, as well as one set of red wooden tiles numbered 1 to 10. The set comes in a compartmentalized wooden box with a lid for convenient storage.

**Item Code: M02414**

**Price : 2000**

## Cut-Out Numerals & Counters

The Cut Out Numerals and Counters set includes red wooden numerals from one to ten and 55 red wooden counters - enough to count out all ten numbers at once. The numerals are 7.5 cm high and the counters are 1.5 cm in diameter.

**Item Code: M02415**

**Price : 1800**

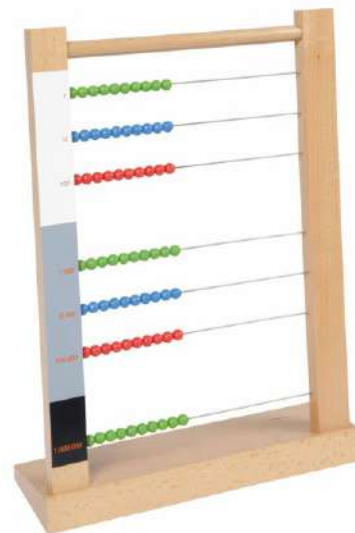

## Numerals and Signs

A wooden box with 6 sets of wooden Cut-Out Numerals and the signs '+' and '-' for use in addition and subtraction exercises.

**Item Code: M02416**

**Price : 3800**

## Large Bead Frame

The Large Bead frame has a hardwood frame with seven rows of beads representing the hierarchy of numbers from units to millions. The frame measures 37 cm high and 29 cm wide.

**Item Code: M02417**

**Price : 2600**

## Algebraic Binomial Cube

The Algebraic Binomial Cube (also known as the Fourth Power of a Binomial) is really the same as the Binomial Cube, but in a smaller size and in colors related to the Fourth Power of a Sum - 1st set and Fourth Power of a Sum - 2nd set. The completed cube measures 5 cm on each side and comes in a wooden box with two hinged sides and a lid.

**Item Code: M02418**

**Price : 3600**

## Algebraic Trinomial Cube

This is a box containing 27 wooden cubes painted in various colors. This represents the equation  $(a+b+c)^3$  like in a trinomial, but here, the component pieces are color-coded in hierarchical values from 1 unit to 1 million.

**Item Code: M02419**

**Price : 4650**

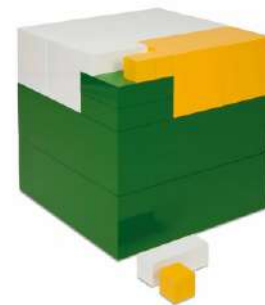

## Power of Two Cubes

This is a box containing wooden prisms in yellow, white and green that have different dimensions. This box demonstrates the power of two with its component parts of cubes and prisms, where each piece is formed by squaring the previous piece. The completed cube is 8 cm per side and comes in a box with two hinged sides and a lid. The box measure 10 cm per side

**Item Code: M02420**

**Price : 3700**

## Power of Three Cubes

This is a cube made up of 13 pieces: five yellow cubes, four white prisms and four green prisms. This material demonstrates the power of three with its component parts of cubes and prisms. The completed cube is 27 cm per side and comes in a double hinged box with lid measuring 30 cm per side.

**Item Code: M02421**

**Price : 4700**

### Fourth Power of Binomial Box 1

The first Set of Fourth Power of a sum prisms includes 16 prisms in different colors to represent the formula  $(a+b)$  raised to the fourth power.

**Item Code: M02422**

**Price : 4800**

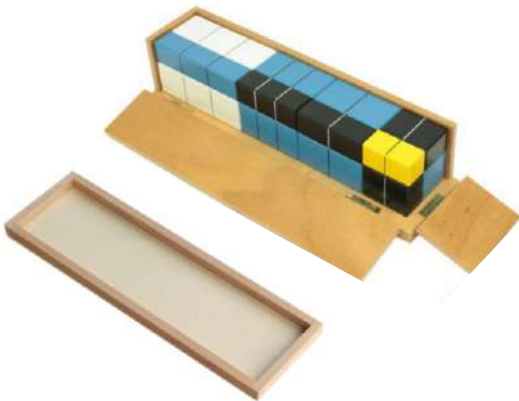

### Fourth Power of Binomial Box 2

The Second Set of Fourth Power of a sum prisms includes 40 prisms and Cubes in different colors to represent the formula  $(a+b)$  raised to the fourth power.

**Item Code: M02423**

**Price : 4500**

### Fourth Power of Binomial Box 3

The Third Set of Fourth Power of a sum prisms includes 16 prisms in Different colors to represent the formula  $(a+b)$  raised to the fourth power

**Item Code: M02424**

**Price : 4800**

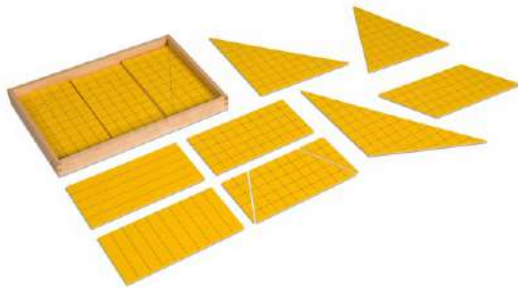

### Fourth Power of Binomial Box 4

The fourth Set of Fourth Power of a sum prisms includes 40 prisms and Cubes in Different colors to represent the formula  $(a+b)$  raised to the fourth power.

**Item Code: M02425**

**Price : 4500**

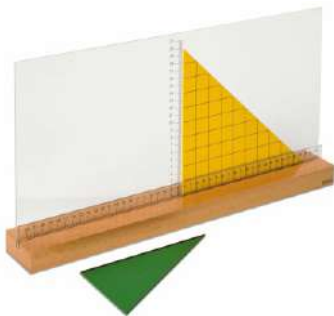

## Yellow Triangles for Areas

The set consists of 20 pieces in all, each with a grid pattern silk screened on the yellow board. The pieces themselves are made of durable press board and come in a lidded box measuring 33 cm x 22 cm.

**Item Code: M02426**

**Price : 4600**

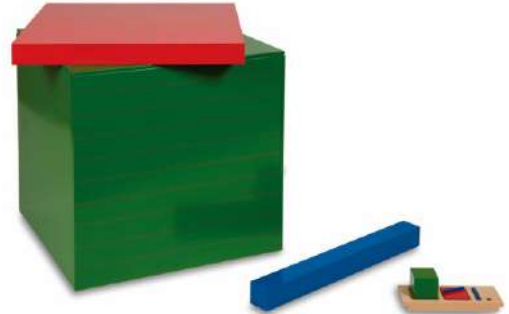

## Stand For Height

A stand for plane geometric form exploration that facilitates in the measurement of height of the Constructive Triangles. Scale is in centimeters.

**Item Code: M02428**

**Price : 3100**

## Geometric Hierarchy of Numbers

This material is used to represent in geometric form the hierarchy of number for: 1, 10, 100, 1000, 10,000, 100,000 and 1,000,000. A wooden tray for presentation of 1, 10, 100 and 1000 is included.

**Item Code: M02427**

**Price : 11500**

## Yellow Prisms for Volume

The set includes five yellow wooden prisms each measuring 20 cm x 10 cm x 2 cm, with markings to demonstrate how they can be divided into progressively smaller measurable units and then counted. The box measures 22 cm x 13 cm.

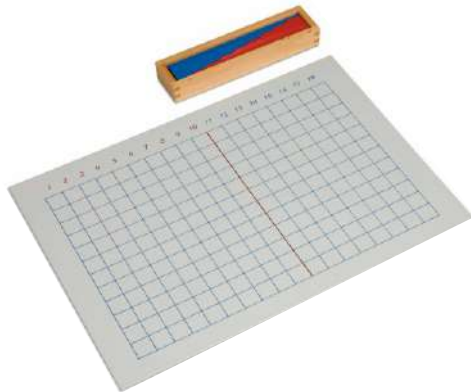

**Item Code: M02429**

**Price : 4400**

# MATHEMATICS

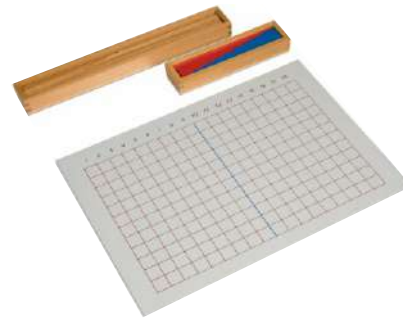

## Addition Strip Board

Using the Addition Strip Board, the child practices the sequence of addition combinations 1–9, and begins the process of memorization of the addition tables. The material is composed of a hardboard chart 12 squares by 18 squares with the numbers 1–18 printed across the top. Stored in a hardwood box are the strips used for the exercise, 9 red strips divided into squares and 9 solid blue strips, both printed with the numerals 1–9.

**Item Code: M082430**

**Price : 4100**

## Subtraction Strip Board

Using the Subtraction Strip Board, the child practices the equations of the subtraction tables 1–18. Natural wooden strips corresponding in length to the squares 1–18 are used to indicate the number to subtract from (minuend) and 1 set of blue strips used to subtract with (subtrahend). A set of red strips is included for further explorations. The 2 sets of strips are stored in wooden boxes.

**Item Code: M02431**

**Price : 4100**

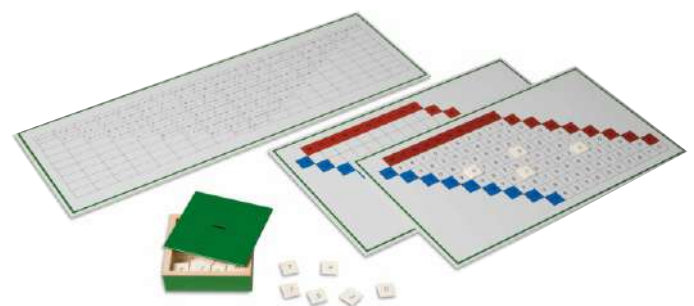

## Addition Working Charts

The Addition Working Charts aid the child in the practice and memorization of the unit addition combinations. Includes 2 control charts, 4 working charts and 1 box of wooden answer chips.

**Item Code: M02432**

**Price : 4600**

## Subtraction Working Charts

The Subtraction Working Charts aid the child in practice and memorization of the subtraction combinations. Includes a control chart, 2 working charts and a box of wooden answer chips.

**Item Code: M02433**

**Price : 4800**

## Multiplication Working Charts

The Multiplication Working Charts aid the child in practice and memorization of the multiplication tables 1 x 1 through 10 x 10. Includes 2 control charts, 3 working charts and a box of wooden product chips.

**Item Code: M02434**

**Price : 4800**

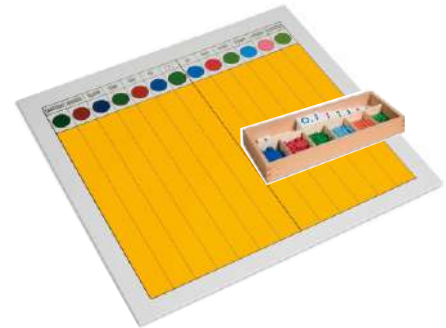

## Large Fraction Skittles

This set contains a hard wood tray and five large skittles, representing divisors of whole,  $\frac{1}{2}$ ,  $\frac{1}{3}$ ,  $\frac{1}{4}$ , and  $\frac{1}{5}$ .

**Item Code: M02436**

**Price : 4100**

## Decimal Fraction Board & Exercise

The set consists of Decimal board and divided box containing 60 each of small wooden cubes in 6 colors, as well as a set of cards from whole numbers to millionths.

**Item Code: M02435**

**Price : 6800**

## Fraction Circles with Stands

Fraction Circles introduce the child to the concept of fractions. The child is introduced to all aspects of fraction work, i.e., correct terminology, equivalency, arithmetic functions, conversion to decimals, measurement of angles, etc. 2 stands designed to each hold five Fraction Circles for storing and carrying.

**Item Code: M02437**

**Price : 4600**

# MATHEMATICS

$5 + 4 =$	9
$9 + 7 =$	16
$4 + 7 =$	11

## Addition Equations and Sum Box

This 2-compartment box with lid contains plastic chips, 1 set with equations printed on them and 1 set with the answers to be used with the Addition Working Charts. All the equations and sums for the addends 1–9 are included.

**Item Code: M12438**

**Price : 4700**

$8 - 6 =$	2
$4 - 3 =$	1
$6 - 1 =$	5

## Subtraction Equations & Differences Box

This 2-compartment box with lid contains plastic chips, 1 set with equations printed on them and 1 set with the answers to be used with the Subtraction Working Charts. All the equations and differences for the subtraction combinations 1–18 are included.

**Item Code: M02439**

**Price : 4700**

$6 \times 10 =$	60
$9 \times 8 =$	72
$3 \times 5 =$	15

## Multiplication Equations & Product Box

This 2-compartment box with lid contains plastic chips, 1 set with equations printed on them and 1 set with the answers to be used with the Multiplication Working Charts. All the equations and products for the multiples 1–10 are included.

**Item Code: M02440**

**Price : 4800**

$6 \div 1 =$	6
$18 \div 6 =$	3
$28 \div 4 =$	7

## Division Equations & Dividend Box

This 2-compartment box with lid contains plastic chips, 1 set of all the equally divisible problems for the numbers 1–81 and 1 set of chips with the answers to be used with the Division Working Charts.

**Item Code: M02441**

**Price : 4800**

# MATHEMATICS

## Division Working Charts

The Division Working Charts aid the child in practice and memorization of the division combinations. Includes 2 working charts, 1 control chart and a box of wooden answer chips. The first working chart later becomes the control chart for the child to correct its work with the blind chart.

**Item Code: M02442**

**Price : 4700**

## Decimal Stamp Game

This set includes:

- Wooden numbers tiles for one, tenth, hundred and thousand
- Skittles
- Counters
- Wooden box with a lid.

**Item Code: M02443**

**Price : 3500**

## Decimal Checker Board

It is made up of 49 squares colored in the hierarchical shades of green, blue and Red

**Item Code: M02444**

**Price : 3600**

## Bank Game

The Bank Game reinforces the concept of long multiplication. The children assume different roles as they perform the game exercises. Includes plastic number cards and role designator cards and a specially designed box with lid.

**Item Code: M02445**

**Price : 6200**

## Unit Division Board Set

Using the Unit Division Board, the child practices the tables of division with the dividends 1–81 and divisors 1–9. The material consists of a unit division working board, a box containing 9 green unit skittles, a green bead cup and a box of 81 green beads.

**Item Code: M02446**  
**Price : 3800**

## Multiplication Board Set

The Multiplication Bead Board is used for practice with the multiplication tables 1 x 1 through 10 x 10. The box consists of the multiplication working board, a box with small plastic cards numbering 1-10, which represent the multiplicand, a red disc which marks the multiplier and a box of 100 red acrylic beads.

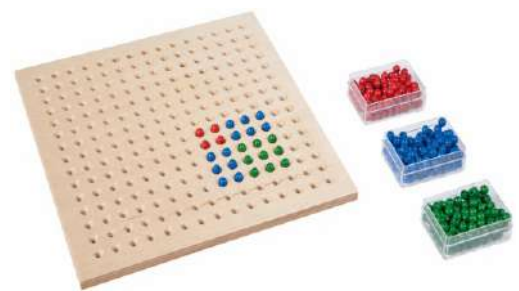

**Item Code: M02447**  
**Price : 3800**

## Long Division Material

The Long Division Montessori materials is used for both short and long division with dividends up to the millions and divisors from one to four digits. The complete set consists of 4 color code division boards, 1 wooden tray that holds 7 racks of tubes with beads, 7 cups and 36 skittles.

**Item Code: M02448**  
**Price : 18300**

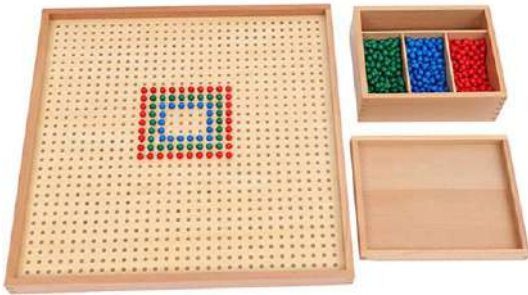

## Small Square Root Board

The Square Root Bead Board features a grid of 225 holes (15 x 15) and comes with 100 each of red, green and blue beads. The board measures 27 cm square, and the beads are contained in a divided box with lid.

**Item Code: M02449**  
**Price : 3800**

# MATHEMATICS

## Square Root Peg Board

The Square Root Pegboard measures 45 cm x 45 cm and comes with a segmented box. The board has 900 holes in a 30 x 30 grid, and comes with 300 each of red, green and blue beads.

**Item Code: M02450**

**Price: 5300**

## Small Number Cards Wooden 1-9000

Set of small wooden number cards with colored numerals, tens, hundreds and thousands from 1 to 9000. Includes compartmentalized storage /display box.

**Item Code: M02451**

**Price: 1850**

## Large Number Cards Woden 1-9000

Set of large wooden number cards with colored numerals, tens, hundreds and thousands from 1 to 9000.

**Item Code: M02452**

**Price : 2200**

## Large Number Cards Plastic 1-9000

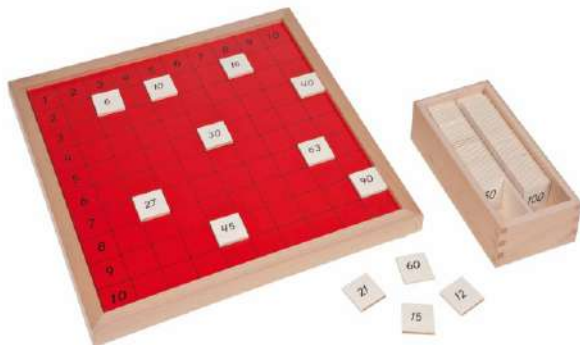

Set of large Plastic number cards with colored numerals, tens, hundreds and thousands from 1 to 9000.

**Item Code: M02453**

**Price : 2550**

# MATHEMATICS

## Pythagoras Board Set

A material used for teaching the multiplication tables. The material consists of a wooden board printed with 100 squares and a box with lid containing printed wooden answer chips.

**Item Code: M02454**

**Price : 3500**

## Hundred Board Set

A material used for teaching the number sequence from 1 to 100. The material consists of a wooden board printed with 100 squares and a box with lid containing wooden chips printed with the numbers 1-100.

**Item Code: M02455**

**Price : 3500**

## Gray & White Number Tiles

This advanced set of wooden color-coded Number Tiles is designed for use with the Checker Board, Decimal Checker Board, the Flat Bead Frame, the Bead Material and various other math exercises.

**Item Code: M02456**

**Price : 3800**

## Colored Counting Bars

The Colored Counting Bars correspond in length and color to the Cubing Material. This material is a transition between the bead bars and the solid material. The set consists of 20 bars of each quantity 1-10, stored in a wooden box with 10 compartments.

**Item Code: M02457**

**Price : 7500**

# MATHEMATICS

## Cubing Material

The Cubing Material is used to construct cubes and discover relationships between their component parts. These exercises prepare the child for abstract analysis of the binomial and trinomial cubes along with cube roots. The material consists of 1 cube and 27 squares for each of the numbers from 1 - 9. Includes a beechwood tray with lid.

**Item Code: M02458**  
**Price : 16500**

## Geometric Stick Material

The Geometric Stick Material is used in the elementary classroom for the study of lines, the measurement of angles, and the construction and analysis of plane geometric shapes. Consists of a series of color-coded sticks, plastic curves, a plastic measuring angle, a plumb line, tacks and brad fasteners, all stored in a compartmentalized wooden box with lid.

**Item Code: M02460**  
**Price : 6200**

## Multibase Material and Chart

The Multi-Base Material represents the hierarchical and geometric numbers in bases 2 and 3 for counting forwards and backwards. It teaches children how to convert numbers from base ten into these bases and vice versa. The Multibase Hierarchical material consists of a chart measuring 65 cm x 40 cm, a variety of cubes and prisms ranging from 9 mm to 9 cm, and a set of cards.

**Item Code: M02459**  
**Price : 7200**

## Centesimal Circle and Protractor

To introduce the concepts of angles, degrees and how a whole can be broken down into smaller components, the Centesimal Circle & Protractor set provides a simple visual reference. Each wooden board is 14 cm x 14 cm with a 10 cm inset circle.

**Item Code: M02461**  
**Price : 2450**

# MATHEMATICS

## Table of Pythagoras

The material consists of a ten compartment wooden box for storing the sets of color-coded wooden squares and rectangular. The child uses the wooden squares and rectangles in order to complete the square of a decanomial

**Item Code: M02462**

**Price : 6500**

## Geometric Shapes Puzzles set

These sets of simple geometric shape puzzles are designed to help young toddlers and preschoolers in developing their gross motor skills and hand-eye coordination

**Item Code: M02463**

**Price : 4200**

## Colored Bead Stair Hanger

A hanger designed for practising basic numbers 1 - 10 by associating bead bars to the number tiles. It also gives the child an opportunity to put numbers in a sequential order.

**Item Code: M02464**

**Price : 2600**

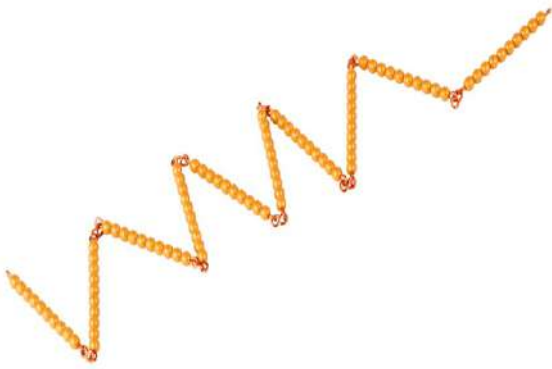

## Teen Bead Hanger

The set includes a wooden hanger, a small box with tiles numbered 11 to 19, and a set of coloured and golden bead bars to make numbers 11 to 19.

**Item Code: M02465**

**Price : 2900**

## Golden Bead Chain of 100

The Golden Bead Chain of One Hundreds strung on copper wire with copper links between each bar.

**Item Code: M02466**

**Price : 400**

## Golden Bead Chain of 1000

The Golden Bead chain of 1000 presents the concept of large numbers in a very visual way. The one hundred bars of ten are each strung on copper wire with a copper link to hold them securely together.

**Item Code: M02467**

**Price : 3200**

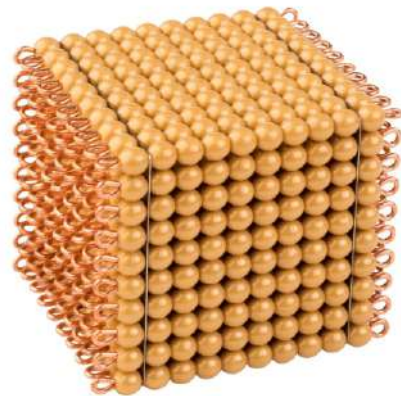

## Golden Bead Square of 100

The individual Golden Bead Hundred Squares are made of 8 mm beads strung on steel wire.

**Item Code: M02468**

**Price : 400**

## Golden Bead Cube of 1000

A single Golden Bead Thousand Cube

**Item Code: M02469**

**Price : 2100**

## Golden Bead Ten Bars Set of 45

45 Golden Beads Bars of Ten.

**Item Code: M02470**

**Price : 1800**

## Black and White Beads Stairs 5 Set

Bead Stairs are used in addition and subtraction activities.

**Item Code: M02471**

**Price : 2200**

## 100 and 1000 Chain Frame

A wooden rack with hooks for hanging the chains. The rack measures 20 cm x 9 cm x 7.5 cm and can be easily mounted on a wall using the two metal loops on the back.

**Item Code: M02472**

**Price : 1700**

## Colored Beads Stairs 10 sets

The Colored Bead Stairs are used for activities of addition, subtraction and multiplication. Includes a hardwood box with lid.

**Item Code: M02473**

**Price : 3800**

## Introduction to Decimal Quantity

A tray containing Golden Bead Materials used in the introduction of the decimal quantities of 1, 10, 100 and 1000. Cards are ordered separately.

**Item Code: M02474**  
**Price: 5500**

## Introduction to Decimal

A wooden box containing number cards used for the introduction of the values of 1, 10, 100 and 1000.

**Item Code: M02475**  
**Price : 1650**

## Introduction to Decimal System

A concrete representation of the decimal system 1 to 1000, which demonstrates place value and the concept that a decimal category can not exceed 9. The set includes: 9 individual unit beads, 9 bars of 10, 9 squares of 100, 1 cube of 1000, 3 wooden boxes, 1 wooden unit tray, and a wooden tray.

**Item Code: M02476**  
**Price : 6800**

## Cutout Labeled Fraction Circles

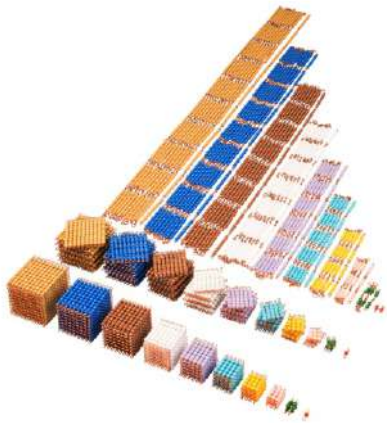

The plastic set includes 5 whole circles and 5 sets of labeled fraction pieces for each of the values from halves to tenths. The Cut-Out Labeled Fraction Circles are stored in a wooden box with 10 compartments and a lid.

**Item Code: M02477**  
**Price : 4500**

# MATHEMATICS

## Beads for Linear Counting Frame

Set of all linear counting beads,  
**The set includes...** Bead cubes from 1 to 10, Bead squares from 1 to 10 (i.e. 10 squares of 10, 9 squares of 9, etc.) Long bead chains from 1 to 10, Short bead chains from 1 to 10.

**Item Code: M02478**  
**Price : 26300**

## Cabinet for Bead Materials

The Cabinet for Bead Material is essential for holding and organizing the Complete Bead Material set .Measures: 96 x 10 x 124 cm

**Item Code: M02479**  
**Price : 8500**

## Complete Bead Material with Cabinet

The Complete Bead Material Set is a center piece to any well-equipped Montessori classroom, particularly when paired with the Cabinet for Bead Material Containing cubes, square and chains of the all numbers (colors) 1-10. A wood cabinet for storage of bead material. Measures: 96x10x124cm

**Item Code: M02480**  
**Price : 34800**

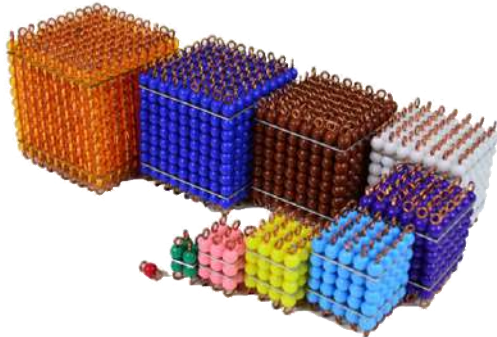

## Set of Arrows for Linear Counting Frame

The Arrows for Bead Materials consists of twenty sets of color-coded arrows for use with the long and short bead chains. Each set of arrows is printed with units and multiples pertaining to each of the chains.

**Item Code: M02481**  
**Price : 3400**

# MATHEMATICS

## Decanomial Bead Cues

The Decanomial Bead Cubes is the classic set of bead material for the Montessori environment. This set includes colored bead cubes of 1 to 10.

**Item Code: M02482**
